

Product Overview

TGSept AL is a ready-to-use, two-alcohol solution for hand sanitization. One of the essential advantages of this product is its compelling and powerful antiseptic properties against a wide range of fungi and bacteria & enveloped viruses in 30 seconds, as well as against non-enveloped viruses in 2 minutes. Having such a privilege makes using this product an ideal and safe experience. The natural emollient compounds used in the unique formulation of this product maintain the skin's moisture balance while preventing dryness and skin allergies caused by the use of alcoholic solutions. This colorless product is offered in two forms with a pleasant and lasting scent and also without it. This feature is considered in full respect for the needs of the consumers to make it possible to benefit from this product in various conditions. TGSept AL is also an excellent option for disinfecting non-sterile gloves made of latex, vinyl, and nitrile. The compounds used in the formulation of this product are biodegradable and environmentally friendly.

Directions for Use

Before use, remove your watch, rings, and all other jewelry. Apply 2-3 mL of the solution to dry hands and rub for 30 seconds, following the hygienic hand-rub procedure.

If a suitable product is unavailable and surgical hand preparation is required, apply 3-5 mL of this solution on three occasions and scrub the hands for 3 minutes, following the surgical hand-scrub procedure.

Delivery forms:

40 cc, 500 cc, 1 Lit, 4 Lit.

Product Benefits
