

TGSURF AQ | Instructions for Use

Fast-Acting, Alcohol-Based Intermediate-Level Surface Disinfectant

FOR YOUR SURFACE

Safety Precautions:

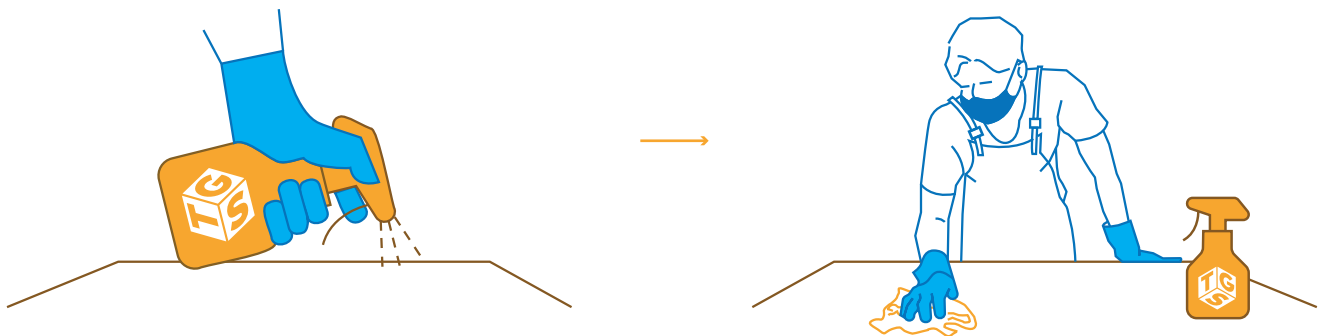

- Do not use this product simultaneously with other chemical products.
- Wear protective gloves and a mask during use.

Applications:

- For the disinfection of surfaces and equipment in medical, dental, ophthalmology, and other clinical settings.
- Not suitable for alcohol-sensitive surfaces.

A Direct Spray Method

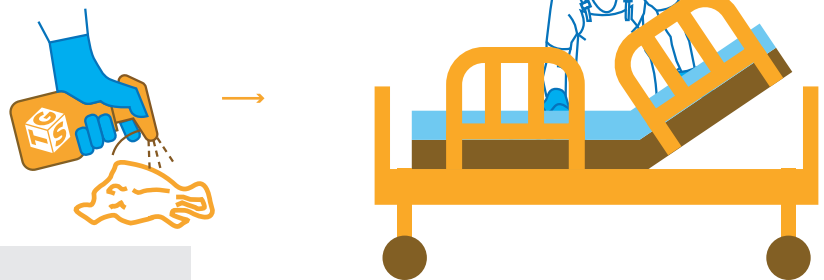

Remove all visible dirt, contamination, and grease from the surface.

Spray approximately 10 mL of the solution, (equivalent to 8–10 sprays), per square meter of surface. Allow a contact time for 1–3 minutes. Wipe the treated surface with a clean cloth.

B Wipe Application Method

Remove all visible dirt, contamination, and grease from the surface.

Safety Card

Safety Symbols

Causes eye and skin irritation. May cause an allergic skin reaction.

Highly flammable liquid.

Red – Flammability: 3
Highly flammable.
Blue – Health Hazard: 2
Moderate health hazard; may cause skin and eye irritation.
Yellow – Reactivity: 1
Normally stable.

Health Effects

Eye Contact

Remove contact lenses, if present. Immediately rinse with plenty of clean water for 15 minutes and seek medical advice if necessary.

Ingestion

If the person is conscious, rinse the mouth thoroughly with plenty of water and seek medical attention.

Skin Contact

Wash the affected area thoroughly with water. Seek medical attention if irritation persists.

Firefighting Measures

This product is flammable.

Handling and Storage

- Wear appropriate personal protective equipment during handling, including gloves and suitable eye protection.
- Upon receiving the product, make sure the carton is not wet or damaged.
- Observe the acceptable storage-temperature range stated on the product label.
- Do not stack more than a few cartons on top of one another.
- Keep cartons away from direct sunlight.
- Avoid dropping the container or striking it against hard surfaces.

Storage Conditions:

Store in a well-ventilated area in a suitable, tightly closed container.

Protect from direct sunlight.

Store between 15°C and 30°C.

Special Packaging Requirements:

Keep the solution in its original container. After each use, close the cap tightly and store away from direct sunlight, high temperatures, food products, and the reach of children.

Spray approximately 10 mL of the solution, (equivalent to 8–10 sprays), onto a clean cloth. Gently wipe the target surface with the cloth. Maintain a contact time for 1–3 minutes.
