

TGSURF Q PLUS | Instructions for Use

Non-Alcoholic Intermediate-Level Disinfectant for Surfaces and Equipment

FOR YOUR SURFACE

Safety Precautions:

- Do not use this product simultaneously with other chemical products.
- Wear protective gloves and a mask during use.

Applications:

- For the disinfection of surfaces and equipment in medical, dental, ophthalmology, and other clinical settings.

Direct Spray Method

Remove all visible dirt, contamination, and grease from the surface.

Spray approximately 10 mL of the solution, (equivalent to 8–10 sprays), per square meter of surface. Allow a contact time for 2 - 5 minutes. Wipe the surface with a clean cloth.

Wipe Application Method

Remove all visible dirt, contamination, and grease from the surface. **For effective surface disinfection, the wipe application method is recommended.**

Spray approximately 10 mL of the solution, (equivalent to 8–10 sprays), onto a clean cloth. Gently wipe the target surface with the cloth. Maintain a contact time for 2 - 5 minutes.

Safety Card

Safety Symbols

Causes eye and skin irritation. May cause an allergic skin reaction.

Toxic to aquatic life.

Red - Flammability: 0
Not flammable.
Blue - Health Hazard: 2
Moderate health hazard.
Yellow - Reactivity: 1
Normally stable.

Health Effects

Eye Contact

Remove contact lenses, if present. Immediately rinse with plenty of clean water for 15 minutes and seek medical advice if necessary.

Ingestion

If the person is conscious, rinse the mouth thoroughly with plenty of water and seek medical attention.

Skin Contact

Wash the affected area thoroughly with water. Seek medical attention if irritation persists.

Firefighting Measures

This product is not flammable.

Handling and Storage

- Wear appropriate personal protective equipment during handling, including gloves and suitable eye protection.
- Upon receiving the product, make sure the carton is not wet or damaged.
- Observe the acceptable storage-temperature range stated on the product label.
- Do not stack more than a few cartons on top of one another.
- Do not expose the cartons to direct sunlight.
- Avoid dropping the container or striking it against hard surfaces.

Storage Conditions:

Store in a well-ventilated area in a suitable, tightly closed container.

Protect from direct sunlight.

Store between 15°C and 30°C.

Special Packaging Requirements:

Keep the solution in its original container. After each use, close the cap tightly and store away from direct sunlight, high temperatures, food products, and the reach of children.
